## T. A. Bonser, The New Garage.

### Stony Plain Town Council.

Stony Plain Town Council held its regular meeting on Thursday last, Oct. 5, with all the members present.

Proceedings opened with the usual monthly discussion of ashcans and accessories. It was again decided to purchase cinder receptacles at wholesale and re-sell these at cost, to those who wish to buy. The regulations require that, in the business district, cans be used in which to deposit ashes, and these regulations will be put in force. The Fire and Light Committee was instructed to get figures from the draymen as to the cost of having the cans removed and dumped, when full.

Fire equipment and a power pump for the new water tank were next on the bill, and these were gone into in a thorough manner. Prices will be procured from agents of these manufacturing concerns, and these will be up for discussion when fire matters are next broached.

It was ordered that tenders be called for the purchase of the \$71 worth of lumber which was used while the concrete tank was under construction, and which was discarded.

The Building Committee was instructed to proceed with the work of connecting the new tank with the supposed sources of the water supply.

A discussion about the band instruments owned by the town took place, and the former band sergeant will be communicated with as to who has the stray bugles in their possession.

### Holborn News.

Mr and Mrs James Phelan were Sunday visitors at the home of Mr and Mrs Kube.

Mr and Mrs H Walton spent Sunday with Mr and Mrs A Duval.

Mr G Black, of Hanna, Alta, shipped three cars of his cattle to his ranch Tuesday.

Messrs F C Berry and G Logan shipped a car of cattle to Edmonton.

Anderson Brothers have the new basement to W J Davidson's residence completed, and it's a good one.

Mr L G Stevens was a Sunday visitor at the Anderson Ranch.

Mr Holland and Charles Witherspoon were holidaying on the banks of the Saskatchewan River on Sunday.

Mr Geo Meisner and Mr and Mrs Burger motored to Edmonton Monday.

Threshing is about over for this year. Everybody knows that the crop was fairly light to carry on and live right, so we will just have to live in hopes for another year.

Mr George Logan, of Full City, Oregon, U.S.A., is here looking after his farming interests, and paying a visit to his brother-in-law, Mr John Adams.

Mr R B Lusk, of Winnipeg, spent the week end with Mr F C Berry.

Mrs Hugh Mackinnon spent Saturday at the Kimberley Ranch.

Miss Harrison left on Wednesday last for her home at Big Valley for a few days.

Mr and Mrs Frank Kimberley spent Sunday with Mr and Mrs Reuben Larson.

Quite a number of gold hunters are busy looking for gold, down at the river. We wish them a good find and hope they'll be generous.

### LOCAL NEWS.

Mr. Jack Shearer was home for a few days this week.

Mr. Jones of the Department of Agriculture, Edmonton, returned to the city Monday, after a pleasant week's vacation spent with friends in Stony Plain.

Mr. Ed Outway has returned from Edson.

Mr. Ph Kulak intends making a shipment of his cattle when the prices stiffen up a little.

Mrs Thos Graden arrived home yesterday, from Edmonton.

Stony Plain Fire committee did its regular inspection tour last week, and on Monday last gave a demonstration with the different extinguishers recently purchased.

The Hardwick General Store shipped a car of spuds this week.

School Board No. 52 held its regular meeting Friday night.

Local Auto accessory dealers report a big sale on tires at present.

A ground fire has been burning in the town Park for the past week, and the Parks Board is making an effort to extinguish it.

Mr. H. Ingram received 3 cars of lumber on Saturday last, for his factory.

Benj. Lawton, the Chief Fire Guardian, is a frequent visitor to Stony Plain District.

The opening night of Stony Plain Lit. on Monday proved a very entertaining affair. The next session occurs Monday, Oct. 23.

Red Cross annual drive for members will be held this year on November 5 to 11.

Farmers are bringing their grain in more plentiful than formerly.

The annual convention of teachers of the Stony Plain Inspectorate will be held this year at the western section of the District, at Edson, on Thursday and Friday, October 19 and 20. All teachers in the Inspectorate are cordially invited.

A very good baseball game was seen on the local grounds Friday evening last, when the High School Cadets from Glory Hills came down and engaged those from Stony Plain High. The score was 21 to 5 against the visitors.

The High School ball team went to Spruce Grove the beginning of the week, accompanied by that nifty pitcher and good all-round player, Ph Alt, whose excellent plays accounted, no doubt, for the very satisfactory score. A very noticeable feature of this game was the man's size pupils playing on the Spruce Grove team; the six-foot youngster who pitched is said to have voted at the last two elections.

Ye no ken the two Hielen' lassies who dance at Comet Skule Hoose the mornow night—reels, the Fling, and Sward dance. Come awa' doop and hae a gaid time!

### Our Greatest Asset

The greatest asset of any country is not its accumulated gold, nor its areas of agricultural lands; not vast mineral wealth nor great manufacturing industries; neither is the greatest of all assets to be found in military or naval power, nor even great universities, learning and strong, influential churches.

The greatest asset of a home is not the dwelling place no matter how fine it may be, it is not a comfortable bank account which provides a guarantee against want and assures comfort in declining years.

No, the greatest asset of a home, and of the nation which is only as strong as the homes of which it is composed, are the children. Take away the children and the home soon disappears and the nation dies.

Few, if any, people will deny the truth of these statements if faced with the necessity of making answer to them, but how many thousands and millions by their daily actions practically deny their belief in these truths?

The world regards war with horror and deprecates the loss of young men in the best years of their life. The taking of life is accepted by the law as the greatest of criminal offences. Yet in this so-called Christian era, and boasted twentieth century civilization, conditions are calmly accepted, even legalized, which in their effect on the race are more deplorable than war, and worse than murder, which only kills the physical body, while the conditions referred to destroy the intellect, ruin the body, and kill the soul of man.

These thoughts are engendered by reading the report of the latest United States census figures which reveal the astounding and alarming fact that approximately 1,000,000 children between the ages of ten and fifteen years, out of a total of twelve million children of those ages, are engaged in work. This is child labor with a vengeance in one of the world's most highly civilized and prosperous countries, and a country which has long boasted of its great national public school system.

What does it mean to the future of the United States, and of the world, to have one out of every twelve of its children between the ages of ten and fifteen engaged in gainful occupations instead of being in school? One aroused United States paper, which admits that statistical figures are cold, uninteresting things, seeks to present "the matter in another light. It says:

"One million under-privileged children, destined to grow to be under-privileged men and women, to recruit the ranks of the half-witted, the gunmen, the incompetent and the criminal."

"One million voters less capable of exercising the great function of the ballot because of poor equipment for reasoning power and decision."

"One million dwarfed intellects to be the easy prey of prejudice, class consciousness and hatreds. Under-sized minds that will fatten the purses of the crafty and the conscienceless."

"One million prospects for the I.W.O.W., the Bolshevik, and the other exponents of half-baked theories of government."

"One million people whose darkened minds will inevitably pull down the standard of art, music, drama, and life in all its ramifications."

"One million little folk, at heart innocent of all these and other dire portents for their country, with a real and just grievance against the one hundred million who permit this immeasurable folly of child labor to continue."

And this paper might have added: "One million prospective fathers and mothers of the next generation weakened, not alone in mind, but in body for the discharge of their great God-given duties and responsibilities."

Fortunately, conditions in Canada are vastly better and in these Western Provinces compulsory school attendance laws, rigidly enforced, operate to largely remove this child labor menace. Nevertheless, cases are by no means lacking where parents strive on one pretext or another to keep their children from school to do work about the farm or home. These short-sighted parents seem to think the immediate and rather puny labor of their children is of greater value than their permanent equipment for life's work and future citizenship.

### France Needs Wheat

This Year's Crop Is Insufficient for Annual Requirements

France's wheat crop for 1922 is more than one-fourth short of last year's production and nearly one-third under the customary annual requirements, according to statistics issued by the Ministry of Agriculture. The rye crop is also insufficient, but oats and barley are more abundant than last year.

The wheat yield is estimated at 64,000,000 quintals, as compared with 88,000,000 last year and the country's normal requirements of 94,000,000. This is due to a reduction of 600,000 acres in the area planted, the small yield per acre and bad weather.

Preliminary purchases abroad already amount to 7,000,000 quintals. These were bought in Canada and the United States at less than the prices prevailing in Paris. For the last month, France has been living on her old reserves because of the late harvest, so actually there is only eleven months to cover. It is estimated, therefore, that the shortage would have been only 24,000,000 quintals and as 7,000,000 were bought abroad, there remains needed 17,000,000 quintals.

But no difficulty is expressed as the wheat exporting countries such as Canada are believed to have a surplus of 50,000,000 quintals above the needs of Europe, where the average shortage is 15 per cent.

### If You Have Neuralgia Rub On "Nerviline"

Apply Nerviline to the sore spot. Not only the pain, but the "glow," spreading deeper and wider as Nerviline's soothing influence is carried deep into the bone tissue. How quickly the pain is eased. In a little while you have forgotten it, the soreness has actually gone. For Neuralgia, Sciatica, Rheumatism, Nerviline is a boon. Large 35c bottles. Sold everywhere.

### Where Learning Is Valued

It is the boast of the Winnipeg Board of Trade that there are more University students in Manitoba, in proportion to population, than in any other province of Quebec, or any state in the United States.

### A GOOD MEDICINE FOR THE BABY

Nothing can equal Baby's Own Tablets as a medicine for little ones. They are a laxative, mild and thorough action, and never fail to relieve constipation, colic, colds and simple fever. "Once a mother has used them she will use nothing else. Concerning them Mrs. Saluste Pelletier, St. Damas des Archaies, Que. writes: 'I always keep a box of Baby's Own Tablets in the house. They are the best medicine I know for little ones and I would not be without them.' The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

### Replenishing Forests

Benedictine Monks Plant Tree For Each One Cut

Benedictine monks for 510 years have been cultivating one of the world's finest forests. It surrounds an ancient hermitage, about fifty miles southeast of Florence, Italy. A report in an American forestry magazine says that this forest is as fine as it was nearly 1,000 years ago, though lumber has been taken out of it in great quantities. The monks plant new trees as fast as they cut down old ones. Our forests are rapidly disappearing. Unless we want a treeless America we, too, will have to plant a tree for each one logged. Forest destruction is our greatest waste.—Aurora Beacon-News.

The Man With Asthma almost longs for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that it pays.

### Civilization

What was once the lower class is gradually absorbing and identifying itself with what was once the middle class. Ultimately, as social conditions improve still further, it will proceed to identify itself with the aristocracy. There will no longer be blue blood or green blood or yellow. The only blood that will run in our veins will be the blood of a free and competent citizen of a great democracy. We shall, in other words, have arrived at the exact position reached by Athens twenty-five hundred years ago.—London Daily Express.

Some people mind their own business only when they have nothing else to do.

YARMOUTH, N.S.

Bayer Aspirin means Bayer Manufacturers to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

# Necessity Of Ensuring The Use Of Pure Seed By Farmers Of The West

The Canadian Seed Growers' Association constitutes an organization of experienced seed growers, many, if not most, of whom devote their principal efforts to the multiplying and maintaining in their purity and productiveness the "Elite" stock seeds that are produced by expert plant breeders who are for the most part employed in connection with Government Experiment Stations, both Federal and Provincial. Seed growers who are operating under the direction of the association have come to be regarded as the important connecting link between the plant breeder and farmers in general. Without the service of our growers of registered seed, it is reasonable to conclude that much of the excellent results derived from the work of plant breeders would be dissipated and, in consequence, farmers in general would not receive the full benefit from their work.

Heretofore, local demand for registered seed absorbed a large proportion of the total quantity produced within the district where it was grown. The recent enlargement of the plan for registration has made it practicable to develop seed production centres with quite extensive acreage of seed crop under superior conditions of soil and cultural practices, and that are particularly favorable to the kind of crop. Thus the total production of Registered seed and of Extra No. 1 seed grown from registered seed, has been, and is being, increased in geometric ratio as compared with ten years ago. It is important that effective measures be adopted to ensure the efficient distribution and the general use of all the best quality of seed produced by our growers, and that the surplus remaining in the favorable years of production be made available for export. Our best qualities of northern grown seeds have come to be highly regarded in many of the States to the south.

Unfortunately, because of the want of proper organization, the distribution of Registered seed, and of Extra No. 1 grade of seed which is grown from registered seed, has not been fully satisfactory. It was this fact that led to the passing of a resolution at the present annual meeting of the Canadian Seed Growers' Association, recommending the formation of organizations for assembling, cleaning, storing, financing and marketing of superior quality seeds of all kinds of our staple crops; and that, pending the organization of a Canadian Seed Growers' Co-operative Association, the Seed Purchasing Commission be given authority to provide a service for selling the surplus of such crops.

The constitution and charter of the Canadian Seed Growers' Association do not provide the authority necessary to enable it to enter into the field of merchandising on behalf of its members. Being supported in part by the Government, it would be quite improper for that association to enter into competition with private companies engaged in the seed business. The Government now has one fairly well established seed marketing organization for the merchandising of seed grain, the Seed Purchasing Commission, and inasmuch as trading is not generally regarded as a proper function of a Government, it is to be expected that as soon as co-operative endeavors in the assembling and distribution of good seed have become sufficiently well developed to meet the very real needs of agriculture, particularly in the prairie provinces, the operations of the Seed Purchasing Commission may thereafter be discontinued as a Governmental institution.

The Provincial Government of the province of Quebec several years ago established and now operates an excellent assembling, cleaning and distributing plant at St. Basile Junction, Quebec. The Provincial Government of British Columbia have more recently developed and are in process of putting the development of an excellent assembling and distributing plant at Penticton, B.C. The farmers' co-operative

organization of the province of Prince Edward Island have an efficient seed warehouse and cleaning plant at Kensington, P.E.I. The grain growers of Saskatchewan have had under consideration for several years the setting apart and equipment of two or more of their elevators for the assembling, cleaning and distribution of Registered and Extra No. 1 seed grain. The latest very satisfactory information is that the Minister of Agriculture for the province of Alberta has indicated that for that province he will provide on the basis of service at cost, well equipped warehouse facilities for the assembling, cleaning and distribution of Registered and Extra No. 1 seed grain and other seeds that may be grown in the province of Alberta. In the early future there will be need for similar efficient plants for the assembling, cleaning and distribution of Registered and Extra No. 1 seed at Winnipeg, Port Arthur and Toronto. Their advantage to the seed growers and their pronounced benefits to farmers in general have been, and will continue to be, so obvious, that we may be reasonably sure of their early development at all centres where they are really needed and without the Canadian seed growers doing more than demonstrating their usefulness and the sound economy of their development and operation on the basis of service at cost. These special seed cleaning and distribution warehouses ought not to become a public charge, and assuredly will not become a public charge unless, as frequently happens their development gains a momentum in excess of requirements, with the result of having warehouses where they ought not to be established.

## New Governor of South Australia

Appointment of Sir George Bridges Recalls Memorable Incident of War

Major-General Sir George Molesworth Bridges has been appointed Governor of South Australia, succeeding Lieutenant-Colonel Sir William Weigell. The latter resigned the position because he said he could not live on his salary and had not sufficient private means to afford the luxury of maintaining such a position. His successor, Sir George, is known in the British army as the "Toy Drum Hero." That term has not been applied to him in derision, but in recognition of a memorable incident of the war in which he displayed great gallantry.

After the action at Le Cateau, in 1914, the British army started on its great fighting retreat, and men were dropping out from sheer exhaustion. Major Bridges, as he then was, went back to St. Quentin to round up stragglers.

He found them in a state of collapse. At a little village shop he bought a toy drum; and failing the men into line with the toy drum and a penny whistle to serve as a band, he marched them off, laughing in spite of their weariness. They kept on marching for 25 hours.

Sir George was the military member of the Balfour mission to the United States in 1917, and head of the British War Mission to the United States in the succeeding year.

Excellent Phone Service in London Reading through a London telephone directory, a New York man said: I find instructions to users on each page. One instruction reads: "Don't shout 'Hallo' at the operator." It was my impression that Britshers answered the phone with "Are you there?" All I have heard answered with the good old American "Hello." And the operators—telephoneists, they call them—respond with the same salutation. The telephone service is excellent.

## Buoys Used at Sea

There are forty different types of buoys used at sea, each of which has a meaning of its own. That of the green color, for instance, marks a wreck, while others similarly distinctive show where rocks, shoals, sandbanks and deep-water channels occur.

## Stone Age Mining District

Mining Carried on at Isle Royale 1,000 Years Ago

Further details concerning the uncovering at Isle Royale of what are believed to be remains of homes used by miners of the stone age, were given by William P. Ferguson, of Washburn, Minn., who was in Port Arthur while on his way home after this summer's activities.

"Isle Royale is definitely placed as a stone age mining district," he said. "Mining was in progress there at least 1,000 years ago or much longer, as we don't know, but we found places six feet in diameter growing on the ancient rock dumps. I have long believed that there were villages or towns in that vicinity, and I have been hunting for years for remains of one. This summer we found an area covering at least half a mile in width and two miles long, over the whole of which we found remains of human habitations. These were largely pits, which had been dug for homes. They ranged from eight to ten feet deep, and were protected by carefully built stone walls, which kept them free from water. Some of these walls had been crumbled and heaved by the forests of passing years. Apparently they had been covered by wooden roofs. Some of them were 20 by 40 feet in diameter, these evidently being communal dwellings. We found one 50 by 80 feet that had evidently been a fort."

"These pits had been oriented, the sides running squarely east and west and north and south, the long sides being straight and north and south, indicating that the people who built them perceived the relation of the stars and the sun to direction."

"These people mined in solid rock the whole island over, but did not dig their shafts deeper than about 30 or perhaps 20 feet deep. Their tools were black egg-shaped stones of great hardness, which are found on the shores of Black Bay, on the north shore of Lake Superior, but not on Isle Royale."

The Taj Mahal, at Agra, is said to be the world's most celebrated mausoleum. Built of white marble and inlaid with precious stones, it cost \$10,000,000, and 20,000 men, it is estimated, were occupied 20 years in the building of it.

## Concerning a Terror Inspiring Moth

AVE you ever seen a human skull? It is not, I admit, an attractive thing to look at, or even a cheerful thing, but I am going to tell you about a lovely little creature that, although it has a very clearly drawn likeness of a skull decorating the top of its soft velvety body is perfectly gay, happy and beautiful, and all that in spite of its being The Death's Head Hawk Moth.

I know a little boy who was sitting up quite late one night studying his history lesson, as he wanted to be first at the examination. It was late spring when exciting things such as examinations occur in school. It also was quite a warm evening, so that the windows were open and the boy was grateful for the breeze that blew in from the garden.

Suddenly something else blew, or, I should say, flew, in with such a loud whirring of wings that the boy was startled. He jumped up, with no thought for his history, but quite intent on what he at first thought was a bat, for it was bumping itself now here, now there against the ceiling and walls. Finally it was caught, and the boy was so amazed and delighted that, very gently holding it in his careful hands, he ran to show it to his family.

It was a Death's Head Hawk Moth, but they didn't know that. To them it was merely a terrible thing, for want there a distinct skull outlined atop it?

The little boy's old aunt burst into tears, his mother seemed anxious and even his father, who as a rule was a most sensible person, looked slightly uncomfortable, while the aunt behind loud sobs wailed that it was an awful sign of misfortune—of death. She was all for killing it, but the boy ran back to his room and carefully let the Moth out of the open window back into the velvet black of the night. Instead then of directly returning to his history, he first opened another book, one about Moths and Butterflies. After searching through the innumerable pages he found an exact copy of his little winged visitor. Having read all about it, he returned to his history.

But an unfortunate call fell on the boy or on his frightened family. On the contrary, they were very happy, and particularly so was the boy on account of his experience. Every evening he hoped his Hawk Moth friend would again flutter through the window toward his light, but as this Moth is quite rare it never returned. Other causes, however, ever so many others—all of colors, shapes and sizes, and the boy always looked them up in his book and learned something about them before releasing them back to the darkness. This boy later became a great naturalist; just because a wonderfully tinted Moth flew to him one evening with its message of wild sweetness.

The Hawk Moth or Sphinx family is a very large one of which there are many different kinds, the best known of which are the Purple Hawk Moth, the White Hawk Moth, the big and little Elephant Hawk Moths, the Hummingbird Hawk Moths, and, last and largest, the Death's Head. This one is seldom seen and only at night. It is protected by its own light by cleverly choosing that place that is like its own coloring. If disturbed it has the uncanny gift of squeaking an angry protest. The young of this Moth, when full grown and just before spinning their cocoons, are large, broad-winged Caterpillars. They are lemon yellow, with several averting purple stripes on either side. They feed mostly on potato plants and dig several inches down into the soil when they intend spinning the cocoon, where they remain for several months before returning to the world as Moths—p

# A Glimpse Of The New Canada Described By A Visitor From London

## Retires After Long Service

Major West Served With Scarier Riders in Peace River

A pioneer of the Royal Canadian Mounted Police and the first officer to be appointed in the Peace River country, Major C. H. West, after 24 years service with the force, retired recently on pension.

Major West had a varied career with the force, acting in many capacities during his long service. The history and traditions of the force appealed to him, and after studying medicine in London, the Major came to Canada in 1885 and immediately joined the Mounties. He graduated in medicine and surgery in the North West Territories and six years later he came to Prince Albert for the first time with the rank of hospital sergeant.

In 1890 he was appointed medical officer at the time when the Dominion Government made its treaty with the Indians in the Athabasca country and the following year he had charge of the R.C.M.P. in the Peace River country. During this period he was for long practically cut off from civilization, receiving mail only about once a year. Mrs. West, a niece of the late Senator T. O. Davis, and a daughter of Col. C. E. A. Patterson, of Montreal, was one of the first white women to visit the post.

After occupying many posts throughout the west, in 1919 he was again returned to Prince Albert. The Major is now living in British Columbia.

## War Waste

The U.S. fleet of wooden ships built during the war at a cost of \$500,000,000, was sold recently for \$750,000. And the ships were useless. But this example of war waste is not so bad as the American war record in aviation. More than \$600,000,000 was spent on the production of air machines, and not an American air machine was used in the war.—Hamilton Herald.

Writing in the London Times, of which he is managing director, after return visit to his native country, Sir Campbell Stuart has most interesting comments to make on Canadian affairs at the present day.

In returning to Canada this last summer I had a fixed intention to revisit the great Prairie Provinces and see for myself the new Canada that had developed there since I was a boy. Ill-health prevented the realization of that wish and I had to content myself with remaining in my native Province of Quebec. I do not want it to be thought that I grumbled at having to stay there for I wonder if anywhere in the world the traveller can find such peace and contentment as in the back country of French Canada. Labor difficulties are practically unknown, and to remain, picturesque, healthy life of the French-Canadian habitant always proved to me that they had learned the secret of happiness. They seem to have learned also the secret of prosperity. The Province of Quebec had a surplus for the year of about \$600,000, a surplus which, according to M. Taschereau, the Provincial Premier, is the surplus of all the other provinces for the last five years.

It was a very different Canada to the one I had known. I found the young men were more interested in public affairs than before the war. I found the consciousness of nationhood was apparent. I found a greater realization of the fact that he needs all his brains, be they in the east or in the west, English or French, to guide her destinies at this critical hour in his history. I found a real desire to stand up to the British League of Nations, but at the same time a very proper wish to look after her own affairs. The important international question which interests Canada today is the appointment of a Canadian ambassador to Washington. The order-in-council provided that in the absence of the British Ambassador he should be in charge of the Embassy. In my opinion the Minister will have enough work to do to look after the affairs of Canada to whom he is responsible without embroiling her in world quarrels. Could not the British Council of Embassy become Charge d'Affaires in the ordinary way? That Canada did not send a Minister there I have no doubt. Canada's interests at Washington are enormous, and the man who is charged with them should understand in every detail the feelings and the wish of the Canadian people.

What Canada needs more than any other place is population. She needs a strong immigration policy, together with the widest possible advertisement of what she has to offer. Her empty spaces are crying out for settlers. She has less than three people to the square mile, whereas her neighbor across the border has thirty-five, and the Japanese across the Pacific have more than three hundred.

## Great Britain Has All-Steel Airplane

Is Less Vulnerable to Bullets and Virtually Fireproof

Great Britain possesses an all-steel bombing airplane, a distinct departure in aerial construction. Except for the canvas winging the entire machine is built of steel. Nevertheless, it is 4 per cent. lighter than a wooden airplane of the same dimensions.

The claim is made that this machine shows a great advance over German airplanes constructed of aluminum alloy, which is said to lack the strength of British steel. It is equipped with two Napier 1,900 horsepower engines. Although designed as a fast long-distance bomber, it is said to be as easy to manoeuvre as a little fighting scout. This is because of its steel construction, which permits the grouping of all weights.

Advantages claimed for all-steel airplanes are greater strength, increased load-carrying capacity, ease of manufacturing in large numbers, and the fact that they are less vulnerable to bullets and shrapnel while in flight, and also that they are virtually fireproof.

Neither poverty nor riches can make a man.

## Sir Henry Thornton Appointed New Head Of Canadian National Road

Ottawa.—Major-Gen. Sir Henry Worth Thornton, K.B., general manager of the Great Eastern Railway of England, is the new head of the Canadian National Railways. An order-in-council appointing him and other members of the board, and formally consolidating the Canadian Northern and Grand Trunk lines into the Canadian National Railway System, passed the Cabinet Council and was approved by the acting Governor-General.

Sir Henry was in Ottawa when final arrangements for his appointment were made. He will return at once to England to settle up his affairs there, returning to Canada to take over the direction of the National System within about a month.

In introducing Sir Henry to the newspapermen, Premier King pointed out that the act provided that members of the board must not be shareholders in, or connected with companies in any way dealing with the railways in question or selling them supplies. This had been accepted, said the Prime Minister, both in regard to the executive board and also in regard to the other members of the board. The Prime Minister also stressed the fact that Sir Henry Thornton would be the main responsibility for the administration of the railways. They would be operated without any interference from the Government and must be kept outside of politics altogether.

A contract was signed extending over three years, under which he is to be paid \$50,000 per annum. Clauses in the contract, it was stated, give protection to both the Government and the new president and general manager of the railways in the event of either side wishing to terminate the agreement before the end of three years.

The resignations of the existing board of directors of the Grand Trunk System were accepted by the Government and the new board was appointed to administer the joint system. The board consists of the following, in addition to Sir Henry, who is president of the system and chairman of the board of management:

John H. Sinclair, K.C., of New Glasgow, N.S., former member of parliament for Antigonish.

Richard P. Gough, of the firm of Sellers-Gough, Toronto and Montreal.

James Stewart, of Winnipeg, former chairman of the Canada Wheat Board, and now president of the Maple Leaf Milling Company.

Ernest R. Decary, ex-president of the Montreal civic committee, Montreal.

Frederick G. Dawson, wholesale merchant of Prince Rupert, B.C.

## TIRED AND RUN DOWN

**Lydia E. Pinkham's Vegetable Compound Helped Where Other Medicines Failed**

Vancouver, B.C.—"I took Lydia E. Pinkham's Vegetable Compound because I was tired and run down. I had headaches and no appetite and was troubled for two years with sleeplessness. I tried many medicines but nothing did me any real good. While I was living in Washington I was recommended by a friend to take the Vegetable Compound. I am stronger and feel fine since then and am able to do my housework. I am willing for you to use these facts as a testimonial."

Mrs. J. C. Gwynne, 771 Horsey St., Vancouver, British Columbia.

Many women keep about their work when it is a great effort because the work must be done. Lydia E. Pinkham's Vegetable Compound has brought relief to thousands of tired housewives by removing the troubles which cause annoying symptoms. If you are suffering from nervousness, headache and backache, pains in right or left side, tired and run-down feelings, or no appetite, take Lydia E. Pinkham's Vegetable Compound.

Just bear in mind this medicine has been used by women for nearly fifty years. That is a long record of service, and stands upon the foundation of merit.

W. N. U. 1441

Tom Moore, president of the Canadian Trades and Labor Congress, Ottawa, representing labor.

Graham A. Bell, deputy minister of railways.

Gerald G. Ruel, general managing counsel.

### A Divorce Granted

After many years of patient suffering, you can be divorced from corals, you can get rid of them completely by applying Putnam's Corn Extractor. This wonderful old remedy acts in 24 hours and never fails. Refuse a substitute and remember "Putnam's" is the only Painless remedy. 25c everywhere.

## BANDITS ADD MURDER TO LIST OF CRIMES

**MAKE GETAWAY AFTER RUNNING  
GUN FIGHT WITH POLICE  
PATROL**

Regina.—Bandits operating in Southern Saskatchewan added murder and two robberies to the long list of crimes now placed to their credit, when Paul Mattoff, an employee of the Regina Wine and Spirits Company, was shot and instantly killed in the C.P.R. station at Blenheim.

While his companions covered under the menace of threatening guns, \$6,000 in cash was removed from the pockets of the dead man. The murderers fled eastward in a big Cadillac car. On the road between Hirsch and Frohisher they overtook and passed the police patrol car. While the cars passed, shots were rained on the bandits from rifles and revolvers carried by the police patrol, and the running gun fight was continued until the robbers were out of range.

Within a short time the same crew is believed to have held up and robbed run running truck at Roche Perce, on the International boundary. It is the same liquor, it is claimed, for which Mattoff was accepting payment when killed.

## THRACE HANDED OVER TO TURKEY

**SUCCESSFUL ISSUE OF CONFERENCE  
IS LOOKED FOR**

London.—The Allies have agreed to return Thrace to the Turkish army in 30 days.

News received that M. Franklin-Bouillon, the French envoy, and Hamid Bey, the Nationalist representative, has decided to return to Constantinople from Mudania immediately, strengthened the hope of the successful issue of the conference.

The delegates agreed to establish a definite line of demarcation between the British and Kemalist forces in the Chanak zone. The space between the opposing forces will be sufficient to place them out of rifle shot, thus lessening the danger of immediate conflict.

A message from Athens says that the Greek Government has ordered general mobilization of the classes of 1917 and 1918. It has also cancelled all leave.

## MAY ADOPT POSTAL AREAS

**PLAN FOR DIVISION OF CANADIAN  
CITIES INTO ZONES TO  
EXPEDITE SERVICE**

Ottawa.—Plans for the division of the larger Canadian cities into postal areas, following the system in vogue in the larger European cities, were submitted at the closing sitting of the conference of Dominion postal officials.

E. J. Underwood, chief of the post office division, postal service branch, Ottawa, who submitted the scheme, argued that by the adoption of postal areas, delivery of mail would be expedited.

Postal officials from Calgary, Vancouver, Winnipeg, London and Hamilton did not think division of their cities into postal areas could be undertaken with advantage at the present time.

In the western cities, particularly where development was rapid, it was argued, maps would quickly be out of date and have to be revised.

## WESTERN EDITORS

W. Ashfield, Editor and Proprietor of The Sun, Grenfell, Sask.

## Husband and Wife Nearly Dead With CHOLERA

The chief symptoms of cholera are vomiting, and purgings occur either simultaneously or alternately, and are usually sudden and very violent, and the matter ejected from the stomach has a bilious appearance and a nasty bitter taste.

On the first symptoms appearing, Dr. Fowler's Extract of Wild Strawberry should be taken, and the trouble checked before it becomes serious. Mrs. Isaac Smith, Campbellton, N.B., writes: "We have been using Dr. Fowler's Extract of Wild Strawberry for cholera. My husband and I were pretty nearly dead with it until we started to use your medicine, and thanks to it, we have found great relief, and are recommending it to all our friends."

"77 years' reputation stands behind 'Dr. Fowler's.' Therefore you are not experimenting with some new and untried remedy when you get it. Price, 50c bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

### Prefers Sea to Politics

Paris.—Admiral Condouriotis has refused the Greek premiership according to a Havas despatch from Athens. When approached in regard to the matter the former minister of marine replied that he preferred to remain in command of the navy.

### Turks Withdrawing

London.—A special despatch from Ankara says that orders have been issued to the Turkish military commanders to evacuate the neutral zones in Asia Minor immediately. The Turkish cavalry has already begun to withdraw from the Dardanelles section.

## Destructive Forest Fires Cause Immense Loss In Northern Ontario

### Disastrous Floods In Bengal

Thousands Are Reported Drowned in Affected Area

London.—A terrible loss of life has been taken by the recent flood in Bengal, says a Reuters cable from Calcutta.

It is impossible to estimate the extent of the disaster at present, but from the fact that an important junction point was for days inundated by five to ten feet of water while crowded with refugees from surrounding villages, which had been completely destroyed, it seems probable that in the whole affected area several thousand people have been drowned.

An outbreak of cholera is adding to the difficulties of the situation.

Toronto.—Halleybury, North Cobalt and several smaller places north of these points have been wiped out by forest fires, which have reached great proportions. Great destruction has been caused throughout the entire country, according to advices received from Cobalt.

It is understood that Heaslit and Elk Lake, two small mining towns, are among the places destroyed by the flames.

As far as can be learned by telegraph and telephone communication with points within reach of the fire zone, the fires sprang up in the bush within a radius of 80 miles, between Cobalt and Dane, which is 160 miles north of North Bay, and were joined by a strong wind at a point half way between these two towns. Within the territory threatened with extinction are the thriving towns of Cobalt, Halleybury, Englehardt, New Liskeard, Charlton, Uno Park, Earleton Junction and Elk Lake.

Halleybury has a population of about 4,000; New Liskeard has about 2,000; Englehardt about 1,500; and Elk Lake about 1,000. These populations, with those of the smaller districts affected, are estimated to comprise a total of 25,000 persons. It is estimated that there is a population of 75,000 north of North Bay.

Over 5,000 people have been rendered homeless. The loss of life is considerable and the property loss will obviously run into many millions of dollars.

### Find Lost Document

London.—The Athens correspondent of the Times says that Constantine's act of abdication has been found in the possession of an aide, Col. Nicolaidis. It will be published immediately.

## "Cascarets" 10c

For Sluggish Liver  
or Constipated  
Bowels

Clean your bowels! Feel fine! When you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take two Cascarets to relieve constipation. No gripping—nicest laxative-cathartic on earth for grown-ups and children. 10c a box. Taste like candy.

## Bar Women From Pulpit

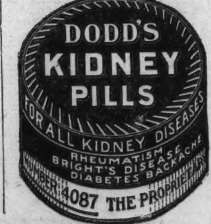

Will Not Be Permitted to Become Pastors of Methodist Churches

Toronto.—Once again the women have lost out in their efforts to gain admittance to the Methodist ministry. By a vote of 17 to 16, the discipline committee of the general conference decided against recommending their admission to the pulpits of the Methodist Church.

There were three women on the committee, and they put up a vigorous fight to allow the women to become pastors.

One of the arguments against women becoming ministers advanced before the committee was that it would tend to "rob the cradle."

Give your local merchants a chance. Buy at home.

## Children Cry For

### Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is so often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for infants and children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of that same infant must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

### News of Duffield District

The method adopted by the  
local U.F.A. for shipping live  
stock is proving most satis-  
factory. One of the largest  
shipments left the yards on  
the 26th, in charge of Mr W  
Best; four cars, comprised of  
50 sheep, 104 hogs, 54 cattle.  
In spite of the fact that the  
shipment was delayed 24 hrs  
on account of train service,  
the stock arrived in good con-  
dition, and brought prices  
that were most gratifying.

Much disappointment was  
in evidence when Bishop  
O'Leary was announced un-  
able to be present for official  
duties in connection with the  
Confirmation Class at Mr  
O'Sullivan's recently. A large  
number had gathered from  
far and near for the service,  
and it was not until the hour  
that they learned that the  
Bishop was unavoidably ab-  
sent. The date for the Con-  
firmation class will be announ-  
ced later.

Threshing is well under  
way here. The grain, while  
not as good as in other years,  
is much better than expected  
earlier in the season.

Many have been the vis-  
itors to see Mr N J Bailey's  
wonderful crop of timothy  
hay on Muskeg Lake. The  
task of draining the lake was  
undertaken by Mr Bailey  
some three years ago, and,  
while not completed, he has  
100 acres of the finest tame  
hay in stacks. By using bog  
shoes on the horses, the cut-  
ting and raking has been sim-  
plified. The hay will average  
about 2½ tons per acre. Mr  
Bailey is to be highly com-  
mended for this piece of work  
which he has done almost  
single handed. He is not the  
first Noah who has ventured  
where the water was abund-  
ant. But he's not floating an  
Ark—it's a Ford.

The new Methodist Church  
on the Indian Reserve will  
be completed and ready for  
the opening service on Sun-  
day next, the 15th. Dedic-  
ation service will be held in  
the morning at 10.30, and at  
7.30 p.m. Principal McCall,  
of Alberta College North,  
and Rev Woodsword, of the  
Indian Industrial School, will

### Prize Essays.

The Women's Institute at Holden  
this year offered special prizes at  
the Holden Fair for essays by school  
pupils. In the competition result-  
ing the prize in Grade 8 was  
awarded to Blanche Andrews for  
a very fine paper on "My Idea of  
Canadian Citizenship." In the  
Junior room competition Richard  
Farrell won first prize with an in-  
teresting essay on "The Prairie  
Chicken." This line of work by  
the W. I. at Holden is worthy of  
duplication in other parts of Al-  
berta.

be the speakers at both ser-  
vices.

Miss Ada Lent has gone  
to Edmonton, to begin her  
studies in First Year Arts at  
the University of Alberta.

Mr Isen has been enjoy-  
ing the company of his father,  
mother and brother, from the  
South, during the past few  
weeks.

Mrs W J Clements and

daughters Constance and  
Jean, left for the Coast on  
Saturday evening, where they  
will join Mr Clements.

Mr McDougall has resign-  
ed his position on the railway  
section, and is back in the  
shop.

Mr Hellum had the misfor-  
tune to be kicked by his Ford  
the other day. The injuries  
to his hand necessitated an  
X-ray examination, which dis-  
closed some bones out of  
place. Mr Hellum is learn-  
ing that Fords are not like  
horses—they kick from the  
front, and not from the hind.

There is a faint sound of  
wedding bells in the district  
to the south of us. If the wind  
should change we would hear  
them more distinctly. We are  
told it will change next week  
—something more definite  
then.

## PROGRAMME.

Convention of Teachers to Jasper Inspectorate, to be  
held at EDSON, ALBERTA, on THURSDAY and FRIDAY,  
the 19th and 20th of OCTOBER, 1922.

### Thursday, October 19th.

MORNING SESSION, 9 A. M.

9.00- 9.30—Registration.

9.30-10.00—Opening Address.

Remarks by Chairman, Mr P. B. Sullivan.

10.00—Citizenship as prescribed by the New Course  
of Studies.

Inspector M. E. Lazerte.

Discussion on the above address.

Led by C. G. Austin.

#### AFTERNOON SESSION.

2.00- 2.30—Primary Reading. Miss E. M. Hartley.

2.30- 2.45—Discussion on the above address.

Led by Mrs. Sweet.

2.45- 3.30—Elementary Science for the Intermediate Grades  
as prescribed by the New Course of Studies.

Miss Sophia McLean.

Discussion on the above address.

Led by J. L. Hollingshead.

### Friday, October 20th.

MORNING SESSION.

9.30-10.30—Composition. Inspector M. E. Lazerte.

10.30-11.15—Discussion on the above address.

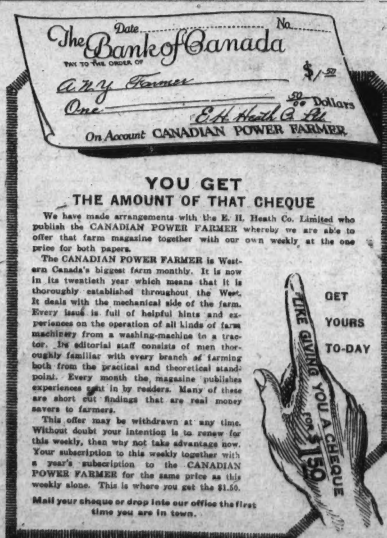

11.15-12.00—Address by Teachers' Alliance Representative.

#### AFTERNOON SESSION.

2.00—Lesson in Arithmetic to Grade VII Class.

Miss Irene Lent.

3.00—Discussion of the New Course in Arithmetic.

**YOU GET THE AMOUNT OF THAT CHEQUE**

We have made arrangements with the E. H. Beach Co. Limited who publish the CANADIAN POWER FARMER whereby we are able to offer that farm magazine together with our own weekly at the one price for both papers.

The CANADIAN POWER FARMER is Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the mechanical side of the farm. Every issue is full of helpful hints and experiences on the operation of all kinds of farm machinery from a washing-machine to a tractor. Its editorial staff consists of men thoroughly familiar with every branch of farming both from the practical and theoretical standpoint. Every month the magazine publishes experiences given in by readers. Many of these are short cut findings that are real money savers to farmers.

This offer may be withdrawn at any time. Without doubt your intention is to renew for this weekly, then why not take advantage now. Your subscription to this weekly together with a year's subscription to the CANADIAN POWER FARMER for the same price as this weekly alone. This is where you get the \$1.50.

Mail your cheque or drop into our office the first time you are in town.

OIL LIGHT BEATS  
ELECTRIC OR GAS

## BURNS 94% AIR

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent kerosene (coal-oil).

The inventor, F. V. Johnson, 578 McDermott Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

WORLD HAPPENINGS  
BRIEFLY TOLD

The Government of India has removed all restrictions on the export of wheat and other grains which have been enforced since 1915.

On Oct. 3 the Parliament at Dublin passed by a large majority the clause of the new Irish constitution containing the oath of allegiance.

All possible co-operation will be given by the Provincial Government in the settling of prospective Dutch farmers in Alberta.

Members on the Vancouver Trades and Labor Council unanimously passed a resolution calling upon the Trades and Labor Congress of Canada to adopt an attitude of opposition to war.

The Cabinet has authorized the Italian delegation to the Geneva conference to accept the proposal before the League of Nations regarding a loan to Austria, this signifying Italy's participation in the loan.

Hon. Charles Murphy, Postmaster-General, received the first parcel sent C.O.D. by the service inaugurated recently. It was a large basket of roses, the gift of the conference of Dominion Postal Officials. The carrier, in delivering the parcel, gravely collected 7 cents from Mr. Murphy to cover the presumed cost.

## BEAUTY OF THE SKIN

is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. Pimples, blackheads, roughness and redness of the skin, irritation and eczema disappear, and the skin is left soft, smooth and velvety. All dealers, or Edmondson, Bates & Co., Limited, Toronto. Sample free if you mention this paper.

## Canada-U.S. Treaty Ready

Provides for Control of Lake of the Woods Levels

The proposed treaty between the United States and Canada providing for control of the levels of the Lake of the Woods will in all probability be widened to include Rainy River and Rainy Lake, as a result of the round table conference between representatives of the interested groups held at Ottawa in the Prime Minister's office recently. The conference has been adjourned until November 15, when it is hoped final arrangements for settlement of the difficulties will be made.

At the conclusion of the conference the Prime Minister intimated that a tentative treaty had been drafted, which he thought would satisfy all those interested.

THAT DRY COUGH  
IS BRONCHITIS

If neglected, it will weaken the throat and perhaps reach the lungs. Nothing surer to help you quickly than the benumbing steam and secretion are cleaned out, all symptoms of weak throat, Catarrh, Bronchitis disappear. Catarrhoid is a genuine, scientific preparation. Sold everywhere in three sizes, 25c, 50c and one dollar for a complete two months treatment. Prepared by the Catarrhose Co., Montreal.

315,000 Visitors Saw The Passion Play  
Some 315,000 visitors witnessed the Passion Play this season. The gross receipts of the play itself were some \$20,000 marks, the sale of books and souvenirs netting another 4,000,000 marks. In addition, other millions were spent in the village shops and restaurants.

Do not allow worms to sap the vitality of your children. If not attended to, worms may wreck irreparable harm to the constitution of the infant. The little sufferers cannot voice their distress, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inexperience to the child.

## Dairy Products From

Canada to Britain

Canada Exported 1,646 Tons of Butter and 58,674 Tons of Cheese

Statistics published in the News Letter of the Dominion Dairy and Cold Storage Branches show that Canada exported to Britain during the year ending June 30th last, 1,646 tons of butter and 58,674 tons of cheese. Exports of butter to the Mother Country from Australia, New Zealand, Denmark and the Argentine all exceed Canada's exports in quantity, but New Zealand alone exceeds our exports in cheese. In the month of July, this year, Canada's exports of butter to the United Kingdom were 41,984 long hundredweights compared with 2,241 hundredweights in the corresponding month last year and 907 hundredweight the year before. The export of cheese fell off considerably, being 126,968 hundredweight compared with 214,568 hundredweight in July, last year.

## RICH IN VITAMINES

MAKE PERFECT BREAD

Trustings to Luck

Reports Show Motorists Are Careless at Grade Crossings

Railroad companies of the United States made observations at 300 unprotected grade crossings on July 15 and 16. There were more than 306,000 automobiles passed over these crossings and the observers reported that 156,607 drivers failed to look in either direction. Most of them, however, slowed down to less than twenty miles, a proportion, looked in one direction, but not in the other, and a few, a very few, stopped before crossing the tracks. There are still many motorists who trust to luck.

A MOTHER'S DUTY  
TO HER DAUGHTER

Health Must be Guarded as She Comes to Womanhood

Every mother who calls to mind her own girlhood knows how urgently her daughter is likely to need health and strength during the years between early school days and womanhood. It is then that growing girls droop and become bloodless and nervous. Nature is calling for more nourishment than the blood can supply, and signs of distress are plainly evident in dull eyes, pallid cheeks, weak and aching backs and a dislike for proper food. These signs mean that the blood is weak and watery. The watchful mother takes prompt steps to give her girl the new, rich blood her system calls for by giving her Dr. Williams' Pink Pills. No other medicine has ever succeeded like them and thousands of mothers have proved their worth. Mrs. W. H. McIntyre, Genoa, Ontario, tells what these pills have done for both herself and her daughters. She says:—"I have used Dr. Williams' Pink Pills for many years, especially in times of weakness and general debility, and have found them a most satisfactory medicine. After a severe attack of influenza I found myself in a nervous condition and resorted to my old tonic—Pink Pills—and they did not fail me. I also gave them to my eldest daughter, who was in a serious condition due to ailments of girls of her age. She complained of headaches and backaches, and would often grow hysterical. She began taking the pills and was soon on the road to health again. She never complains now of headaches or backaches, and I give the credit to Dr. Williams' Pink Pills. Whenever I see any of my children ailing or in need of a blood tonic, I give them these pills and always with the best results."

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## Marketing Education

University of Saskatchewan Students To Write a Thesis on Marketing

Mr. W. Waldron, Acting Commissioner of Co-operation and Markets, is pleased to learn from Professor Swanson, Professor of Economics at the University of Saskatchewan, that part of the course for his students is to be the writing of a thesis on marketing, the major part of which is to be devoted to co-operative marketing. Marketing education, in two words, forms one of the main lines of activity of the Co-operation and Markets Branch, so that anything which tends to the increase of knowledge along these lines must make for the great ultimate advantage of the producers.

Dye Blouse Or  
Baby's Coat In  
Diamond Dyes

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, etc. Every package contains directions so simple any woman can put new, rich, fadeless into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—dye your material and it will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Hen Establishes World Record

A world record for egg-laying has been established at Ottawa. At least this is the belief of Experimental Farm officials. Up to September 20 last, a White Leghorn had laid 107 eggs in as many days or consecutively every day for 15 weeks.

## Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them more than any other ailment. It is good health. This fact proves that while Catarrh is local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and acts through the blood, purifying the blood, and thus reducing the inflammation and assisting Nature in restoring normal condition. Druggists. Circulars free. E. J. Cheney & Co., Toledo, Ohio.

## Water Relieves Blood Pressure

Blood pressure being one of our most popular ailments, it should assist the "drink-water" campaigns of some of our water companies to have it known that the experiments of two London physicians, Orr and Innes, as described in the British Journal of Experimental Pathology, seem to demonstrate that blood pressure can easily be relieved by copious draughts of water.

Ask for Minard's and take no other

## The "City of Flowers"

In Florence, Italy, the famous erri-root perfumes are produced from the roots of the large purple iris or flag which is grown extensively throughout the surrounding districts.

Externally or internally, it is Good.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

## No Cause for Alarm

The minister was visiting the MacDonalds and was asked to stay to dinner. The party sat down, and before beginning his meal the minister bowed his head over his plate to say grace.

Master Eric, seeing this remarked: "It's all right, parson; the meat's quite fresh."

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

## Weston the Walker

Edward Payson Weston, the famous walker, takes a hike between Buffalo and New York. He moves fast and the trip doesn't fatigue him, though he is 84, at which age most old men have to use a cane to totter to the front porch.

Weston's vitality in advanced years illustrates the lasting benefits of sensible living and plenty of exercise in youth and middle age. In 1870, when 32 years old, Weston walked 100 miles in 252 hours—Buffalo Times.

Minard's Liniment Lumberman's Friend

Says It Made A  
New Personal  
Of Her

"Since I have been taking Tanlac I not only feel better in every way, but I am gaining weight right along," declared Mrs. Mary Gillette, 344 Third Ave., Calgary, Alberta.

"For two or three years I suffered from a bad case of indigestion and a terribly nervous, run-down condition. I fell off from a hundred and twenty pounds to only a hundred and five, and my nerves were so shattered I often felt like I would go to pieces entirely. I didn't have energy enough hardly to do my housework. I had scarcely any appetite, even the little I ate would not digest properly and I was bothered all the time with gas on my stomach."

"But Tanlac has already made a wonderful improvement in my condition, and I have only taken three bottles so far. I have a splendid appetite, never suffer any more indigestion and that tired, exhausted feeling I used to have is all gone. My nerves have calmed down till I feel almost like a new person and am simply stronger and better in every way. Tanlac is a grand medicine and I cannot recommend it too highly."

Tanlac is sold by all good druggists.

## Lions Called Affectionate

Trainers say the lion is the only wild animal that is capable of affection.

## "Christ's Second Coming."

HOW: WHEN: WHY.

DUCHOLKE'S HALL.

Sunday, Oct. 15th  
AT THREE O'CLOCK

Speaker, Geo. A. Ware  
Seats free. No collection.

### Lecture on Sunday Afternoon

Continuing the series of lectures  
conducted by the International  
Bible Students' Association in  
Ducholke's Hall on Sunday after-  
noon at 3. Mr. George A. Ware, of  
Edmonton, will speak on the sub-  
ject "Christ's Second Coming."  
This is a subject of vital interest,  
especially in view of the prevailing  
unrest in the world, and the recog-  
nition of the fact by all men that  
a new order must soon be ushered  
in. The speaker will deal with  
his subject from three view points  
—How, When, and Why. Clear  
proof will be produced upon all  
these points. Come and hear the  
Bible evidence on this all-import-  
ant subject. Seats free. No col-  
lection.

### Stony Plain and District

Mrs. Karl Miltership 22 head  
of cattle to the Edmonton Stock  
yards last week. Shipping day  
has been changed to Thursday.

The address of Mr. M. Schollen-  
berger, who owns the well drilling  
outfit is Spruce Grove P.O.

Another car of wheat was ship-  
ped Tuesday from the Henry Mil-  
ler elevator.

At the regular meeting Satur-  
day night of the U. F. Local an  
animated discussion took place on  
banking and allied trades.

Anil Krause, who farms near  
Duffield, had a fire in his resi-  
dence on Monday last, which did  
considerable damage.

Mr. J. E. Meisner, head of the  
proposed Holborn drainagescheme,  
was in Edmonton on Friday last,  
and had an interview with chair-  
man Charlesworth, of the Drain-  
age Council in the matter of pro-  
ceeding with the proposed improv-  
ement.

A petition is in circulation by  
those who use the Meridian Road  
north of the Baseline, to have the  
Department of Public Works put  
this road in proper repair, and  
charge the work to the Municipal  
District, within whose boundary  
it is located.

Stony Plain Centre trustees  
have at last got under way, and  
are calling for tenders for the er-  
ection of a School House, tenders  
returnable by Monday next, Oct-  
ober 18.

A very pretty wedding took  
place at Duffield on Monday, Oct.  
9th, when Miss Edith Ilsen,  
daughter of Mr. and Mrs. W. Ilsen,  
was united in marriage to Mr.  
Geo. Tyrrell. The affair created  
considerable interest in the com-  
munity, and over 100 guests were  
present. The happy couple are  
spending the honeymoon in Ed-  
monton.

Arrangements have been made  
by the Drainage Council, to have  
the election on the Holborn Drain-  
age Scheme held Monday next,  
Oct. 16, at the home of Mr. J. E.  
Meisner, Golden Spike. On the  
result of this election, will depend  
the fate of the scheme.

Members of the provincial gov-  
ernment, including the premier,  
went out Saturday to inspect a  
piece of road in the Entwistle  
district that has been built accord-  
ing to the plans of the Highway  
Commission.

Mr. A. E. Austin, who made  
such a good record at the Glory  
Hills School, is now principal at  
the School at Brule.

The open season for Prairie  
Chickens and Partridges com-  
mences on Monday next, October  
16.

The colors of the 1, 2 and 3-out  
stamps have been changed, did  
you notice?

### In Peaceful Solitude.

Amid beautiful surroundings,  
with the leaves a glorious autumn  
tint, the air a crisp clearness, the  
placid waters of Shrimp Lake in  
the near distance, combined with  
the restful stillness not to be found  
at the busy mart of Stony Plain  
town, the eminent statement com-  
posing Inga Rural Municipality,  
met on Friday last in regular  
monthly meeting, at Edmonton  
Beach, and transacted their busi-  
ness free from annoying interrup-  
tion of irate ratepayers or lengthy ad-  
dresses from Brash orators.

## THE L. FREIFELD DEPARTMENTAL STORE

L. FREIFELD.

## Atlas Lumber Co., Limited

Will do your Crushing and Planing. No time  
lost. Always ready for to give estimates on  
any building. Here's where you get treated  
all alike. Quick Service is Our Motto!

N. MOHR, Local Manager.

An Old-Timer.

## Exide Service Station.

What We Can Do for You.

If you own a Car, we believe we can be of  
real help to you. No matter what make of Battery  
you have, our job is to make it last as long as  
possible, and we are equipped to do this.

At this station we try to give a real meaning  
to the word Service. You can be certain of impar-  
tial advice, skillful work, and reasonable prices.

Not until you really need a new Battery will  
you be asked to buy a long life Exide.

Our price for new Exides, \$29.50 up.

## Stony Plain Garage.

### Spruce Grove News.

Services were held on Sun-  
day afternoon last, in St. An-  
drew's Church, with a good  
attendance.

Main street road has been  
extended down to the station,  
making it much more con-  
venient for the traveling pub-  
lic.

A very good game of base-  
ball was played here the be-  
ginning of the week with a  
team from Stony Plain. The  
local players put up a good  
fight in the second last inn-  
ing and made the score more  
even. Stony Plain won by 12  
to 9.

A plot on the east side of  
Main street has been laid out  
as a site for the new skating  
rink, this being levelled and  
boarded round, all in readi-  
ness for the freeze-up.

A very large number of  
hogs are being shipped in to  
the packing plants from this  
district, at present.

### Business Recovery.

Business barometers are all  
pointing to better times. The  
big coal strikes are settled.  
The railway strikes are near-  
ing adjustment. The recovery  
is more noticeable on this side  
of the Atlantic than overseas.  
For food products the dol-  
lar is going much further than  
a year ago.

Transatlantic poverty has  
been responsible to a large  
extent for the depression in  
grain prices.

Rumors of war sent the  
price of wheat up a few cents.  
We do not want war, but  
grain raisers do want higher  
prices for their products.

Western people are homely  
enough in their way of think-  
ing these days, to find it hard  
to correlate the past year's  
prices on wool and hides with  
this year's prices of clothing  
and boots.
